

# TANMAY BISEN

FULL STACK DEVLOPER

DSA ( C++ )

I am an eager web developer who has a good understanding computer science basics and has developed an interest in artificial intelligence and machine learning. In order to gain some experience outside the classroom, I am keen to start with internship positions that allow me to actively engage in innovative programs.

It's always a delight for me as I keep on improving my knowledge base since I anticipate future technological advancements which will enable me to make positive changes.
